

General H. Hugh Shelton Leadership Forum

The General Hugh Shelton Initiative for Leadership Development
NC State University

The Fourth Annual Shelton Leadership Forum was held at N.C. State University's McKimmon Conference and Training Center November 11, 2005. The audience began the day with Mr. Ross Perot, Founder and CEO Emeritus of Perot Systems Corporation, speaking on "Leadership That Leaves a Legacy". At the end of the day, the audience was left with many reflections from the keynote address given by Dr. John Maxwell, Entrepreneur, Author, and Speaker speaking on "Achieving the Legacy You Want to Leave." Along with these two distinguished guests, the audience was also captivated and educated by our expert session speakers from great organizations such as Mr Bobby Long of Granville Capital, Inc. & Philanthropist, Ms. Kate DeCamp of Cisco, Dr. Tim Smith of BioSignia, Ms. DJ Mitsch of The Pyramid Resource Group, Inc., Mr. George Habel of Capitol Broadcasting Sports Division, Mr. Martin Lancaster, N.C. Community Colleges System, Dr. Pat McGuire of Trinity University, Dr. Larry Nielsen of NC State University, Mr. Paul Pyrz of Leadershape, Dr. Bill Boshier of Commonwealth Educational Policy Institute and Virginia Commonwealth University, Mr. Richard Coleman of Achievable Dream Academy, Dr. Harvey Perkins of The Urban Learning and Leadership Center, Inc., Ms. Penny Franklin of The Community Group, Mr. Ed Gore of Sunset Beach and Twin Lakes, LLC, and Ms. Gail Hurst of Hope Ministries, "Honoring Our Veterans" was the theme for the luncheon enjoyed by all with Posting of Colors by the NCSU ROTC and a repertoire of the armed services songs performed by Meredith College's Encore students, and a video tribute to the armed forces. The mission of the Shelton Initiative, "to inspire, educate, and develop values-based leaders committed to personal integrity, professional ethics and selfless service" was carried to our audience throughout the day. We thank our Corporate, Educational Partners, and speakers for making this possible
